

ENGINE  
TESTING  
SPECIALIST

# FEATURES

- Daily reporting via-email & SMS
- Data representation in Graphical format
- CNG, Diesel / Biodiesel Durability
- Flexible shaft
- 24 x 7 durability test service.

## OIL & FLUID ANALYSIS

- Lubrication System Functional Test.
- Cooling System Functional Test.

## DURABILITY TESTING

- Blow by Measurement Test
- Smoke Measurement Test
- Fuel Consumption Test
- Coolant Consumption Test
- Piston Validation Test
- Spark Plug Validation with CNG Engine Power.

## PERFORMANCE TEST

- Part Throttle
- Full Throttle

# SERVICES

- Engine endurance testing and Real time data Acquisition.
- ECU Basic Mapping.
- Component Reliability testing on engine.
- Engine Assembly and disassembly area.
- Detoration factor durability
- Oil and fluid analysis.
- Oil consumption test
- Thermal shock testing.
- Consultancy for test bed development
- Technical Man power training.
- Catalyst age testing with engine

## MECHANICAL VALIDATION DURABILITY TESTING

- Full load durability test
- Various Cyclic Automated test.
- Thermal Shock test.
- Vibration damper functional test.

## POST PROCESSING OF DATA

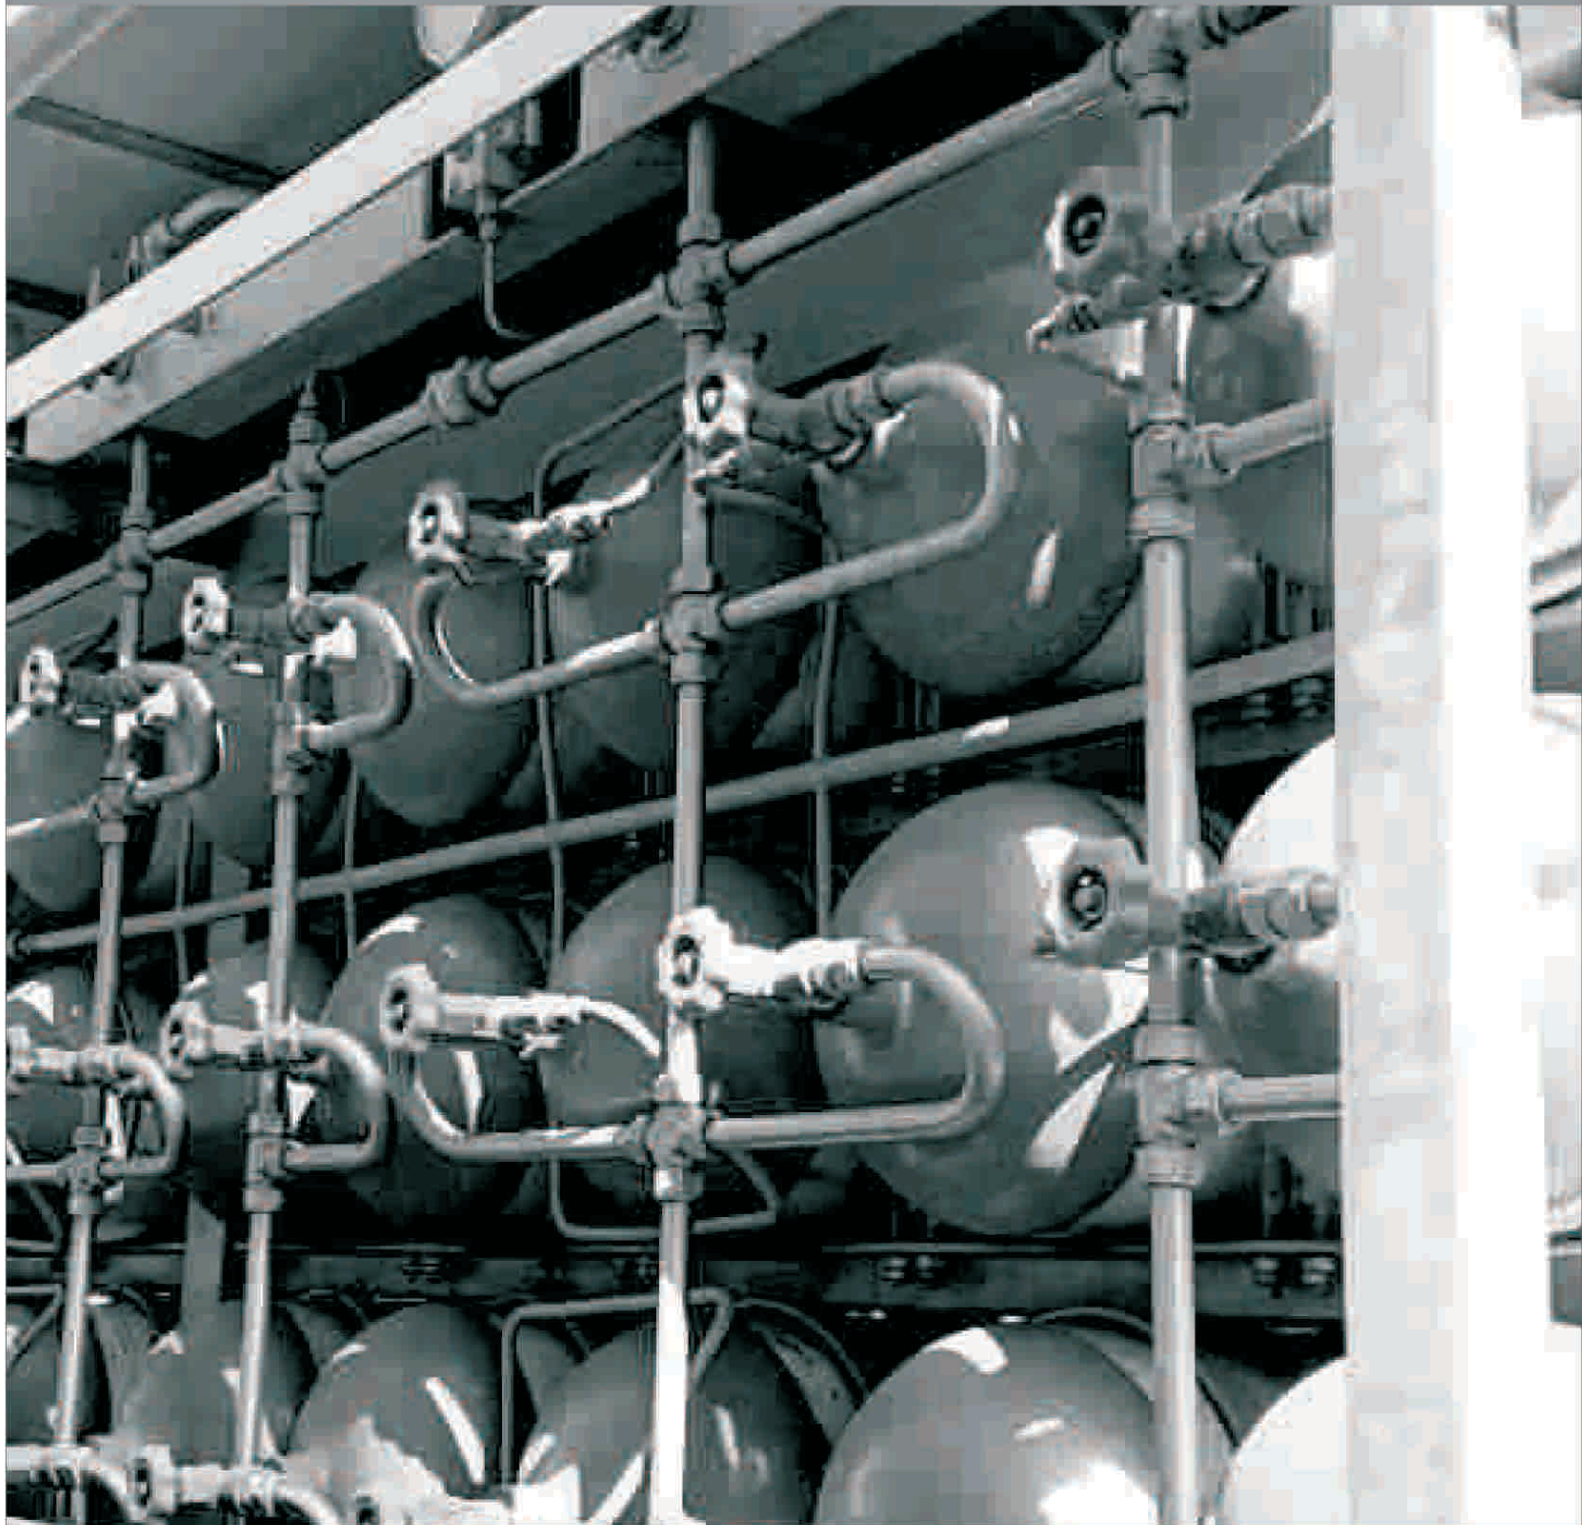

- Daily report (MIS)
- Project Data Analysis
- Real time data Analysis

## POWER TRAIN ELEMENTS

- Shaft Test

UNINTERRUPTED  
CNG SUPPLY FOR  
CNG ENGINE  
DURABILITY TESTING..
